

Lubricating eye drops
Sodium Hyaluronate
20 x 0.5ml preservative free reclosable vials

Composition

Sodium hyaluronate (0.4% w/v), dibasic sodium phosphate; monobasic sodium phosphate; sodium chloride; water for injections.

What is it?

Hye is a preservative free eye drops, solution of Sodium Hyaluronate (0.4% w/v).

How is it presented?

Hye is presented as an eye drops, solution in 20 daily use reclosable vials.

When should it be used?

Sodium Hyaluronate, obtained by biotechnological synthesis, is a substance with muco-mimetic, muco-adhesive and viscoelastic properties.

Hye, thanks to its moisturising and protective qualities, provides soothing comfort and long lasting lubrication, relieving irritation, dryness, burning and foreign body sensations in the eyes due to environmental elements such as wind, sun, dry air, salt water, smoke, excessive light, air conditioning, heating, prolonged use of computer or ocular surgery, conjunctivitis, contact lenses use.

How much to use?

1 drop in the eye one or more times daily, according to necessity.

Precautions and warnings

- Do not use if the container is damaged.
- The product is for external ophthalmic use only.
- Do not use if you are sensitive to any of the components.
- Do not use after the expiry date shown on the pack.
- Do not touch the eye with the tip of the vial.
- After administration, in rare cases, a slight temporary blurring of vision may be observed due to the viscosity of the solution; it is therefore advisable to wait for a few seconds before any activity that requires clear vision.
- Leave at least 10-15 minutes before administration of any other ophthalmic drugs.
- Once opened, each vial can be used for up to 12 hours.
- Keep out of the sight and reach of children.
- Store below 25 °C.
- Do not swallow.
